

NetWoRM Newsletter August 2007

Networm international

Good news from Latin America:

During a visit of Katja in Chile and Brazil in July three new cases were developed. In cooperation with the Universidad de Chile a case about an acoustic trauma as occupational disease has been created. The Universidad Austral de Chile developed a case about prevention and health protection and the Federal University of Paraná, Curitiba, Brazil, a case about a chronic lead intoxication. Great work!

New exchanges planned - Latin America!

A student from Chile will visit us at the end of this year. We are looking forward to welcome her in Munich. Furthermore, as mentioned in the last newsletter, Laura from Munich is currently in Curitiba for cases creation. Next year further visits are planned.

Implementation
of the cases in
Chile

Katja and
Marcelo in
Chile

Denise and her team

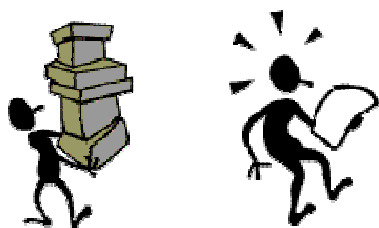

Laura in Brazil

NetWoRM Europe

New EU proposal: So far, unfortunately we don't have any news from the European Union regarding our proposal from April. However, we will inform you as soon as possible!

Overview about the case adaptation and case implementation up to now:

Country	cases adapted	cases implemented
Austria	1	0
Belgium	1	1
Finland	9	4
France	7	3
Great Britain	7 (9)	>10
Poland	9	3
Romania	9	10
Spain	9	10

!!!!To dos for EU Minerva Partners!!!!

So far, we got parts of the required information, certifications, invoices and timesheets from some of you. Thanks a lot therefore! As you all know, only one month is left! Hence it would be great if you could send the missing information as soon as possible to Steffi (latest 08.09.07).

- Send the invoices for case work/translation
(Don't forget the letterhead of your institute on the invoice!)
- Send a report of your centre

This should contain the following information:

- Time sheets
- Salary certification for all participants
- Overview about cases containing information on:
 - participants/responsibilities; new partners
 - case adaptation, case implementation
 - which case level: undergraduate/postgraduate

Looking forward to your reports
Katja, Steffi, Laura, Jörg, Georg, Martin and Inga
