

NetWoRM Newsletter

June 2007

Congratulation to the new title: „Professor“!!!!

We would like to congratulate two of our NetWoRM members to this new title:

Elena Ana Pauncu and Katja Radon are now professors!

New exchanges planned - Quebec!

In the framework of the Bavarian-Quebecois cooperation Aissatou Fall, a student from Quebec will visit Munich in July. We are looking forward to meet her!

New exchanges planned - Latin America!

Katja will visit our partners in Chile and Brasil in July/August. She will teach case creation and help with the implementation of the cases into the curriculum.

Beyond that, a member of Munich, Laura Wengenroth, will visit Curitiba Brazil. Together with the local team she will develop a case about an occupational accident from the Brazilian, Chilean and German point of view.

Quiz! What is this?

Small hint:

Do you remember the springschool 2005?

Thanks a lot for your help with the new EU proposal

We submitted a proposal in the framework of the LIFELONG LEARNING PROGRAMME of the European Union. The EU will inform us about their vote in August. The project should start in November!

!!!!To dos for EU Minerva Partners!!!!

First of all thank you very much for all your hard work during the last months. Most of you worked hard to fulfil the rest of the required tasks and reached many of the aims. As you know there are still some points missing.

Therefore once more a short summary of the tasks for each centre:

- Adapt the missing cases (10 cases adapted until 30.06.07)
- Implement into teaching (10 cases implemented until 31.07.07)
- Send the invoices for case work/translation etc. to Steffi (Don't forget the letterhead of your institute on the invoice!)
- Send a report of your centre to Steffi by 31.08.07 latest

This should contain the following information:

- Time sheets
- Salary certification for all participants
- Overview about cases containing information on:
 - participants/responsibilities; new partners
 - case adaptation, case implementation
 - which case level: undergraduate/postgraduate

Solution of our quiz: New BMW World - opening October 2007. We visited the BMW plant during our springschool 2005!

Looking forward to your reports
Katja, Steffi, Laura, Jörg, Georg, Martin and Inga
